## 2012: The Year of the Co-op

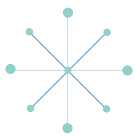

The United Nations has proclaimed 2012 the 'Year of the Co-operative'. The International Year of the Co-operative has been declared as a means to raise public awareness surrounding the invaluable contributions that co-operatives provide.

Co-operatives work to reduce poverty, increase employment generation and social integration. Co-operatives work to pursue both economic sustainability and social responsibility; giving back to their members and to their community.

In keeping with the mandate of the co-operative, TCC ensures to give back to our community every year. Throughout 2011, Tuckersmith Communications donated work to improve the quality of service and development of the community. Each month, TCC donates to different foundations and charities throughout the area. These donations include the Foundation for Education, the Bayfield and Area Chamber of Commerce, the Goderich Disaster Relief Fund, Big Brothers and Big Sisters, and various other organizations, all in hopes to build a better community, and a better world.
